The district does not currently serve any EL students. Students who are at-risk and/or have an IEP have a higher level of in-person instruction.

Document Public Comments:

The Board of directors unanimously discussed the fact that the education decisions (as far as increasing class sizes and programming) are a day-to-day decision in the climate of COVID-19 and should be left in the hands of the school's administration team. The board felt that the administration has the knowledge passed down from the GCHD and BMCC and therefore would like to be notified and updated by email when adjustments are made at the school level.
